

### Reply to the reviewers' comments

Dear Sir,  
Greetings of the day,  
I would like to thank you for your constructive comments/suggestions.  
Warm Regards.

Reviewer Number	Original comments of the reviewer	Reply by the author(s)	Changes done on page number and line number
Reviewer A	Select the best CT and MRI image, indicating the most important findings with arrows, in addition to hiding the patient's name. More references are needed.	Changes made as advised.	
Reviewer B	Improve spelling and syntax, it is proposed: Methicillin-resistant Staphylococcus aureus Pyomyositis inducing Guillain-Barré Syndrome - A rare and unexpected clinical presentation	Changes made as advised.	
	Describe in detail the clinical evolution of the patient and the interventions performed	Changes made as advised.	
	Improve spelling and writing of the story	Changes made as advised.	

	A presumptive conclusion is made based on what is observed. Improve wording and syntax	Changes made as advised.	
	Ideally use recent references (no older than 5 years)	Dear sir, I tried to update the references but since the clinical condition is relatively rare, hence could not find very recent references.	
	It is necessary to improve the spelling, syntax and writing of the disease report	Changes made as advised.
